Package Description

FREE Noir Mystery Stingers by Arya of Terror features 21 dreadful stingers that will terrify the entire globe. Keep in mind that this Asset Package is but a tiny version of the FULL asset package found right here and in all other stores:

https://assetstore.unity.com/packages/slug/198116

To make the most out of these stingers, we highly encourage you to purchase the full sample pack.

Package Contents

This asset package features 21 frightening stingers with a few edited versions to make them very simple to add to your game by dragging and dropping.

Organization

The ending of each file's name contains two letters, here's what they mean:
- _AC: Ancient Cathedral - Low rumbles and a lot of reverb.
- _BV: Broken Vinyl - Made to sound like a broken vinyl record.
- _CR: Creepy Radio - Made to sound like a creepy radio.
- _OD: Ominous Drones - Longer and more insidious versions.
- _SF: Shivering Forest - Great for dark nature oriented games.

The files without any suffix are the original, unedited stingers.

We've also added a **bonus folder** with the first track of our *Horror Soundtracks Vol.1* Asset Package, which you can find in every store.

IMPORTANT NOTE

Although this document shows the suggested use for this Sample Pack, creativity has no limit and we highly recommend that you also use these stingers outside of their intended use; who knows what they will bring?

All audio files are subject to the Store LICENSE.

"We hope you'll find this package useful while making your game… BOO!"
